Ремонт, сервис и запчасти BAXI

Москва, ул. Народного Ополчения, д. 34, стр. 3 (499) 519-03-79, моб. (903) 615-82-73 [boilersp@mail.ru](mailto:boilersp@mail.ru)

# КАК ЧИТАТЬ КАТАЛОГ ЗАПАСНЫХ ЧАСТЕЙ

В каталоге запасных частей, после рисунков, находятся списки деталей котлов. Вот, что означают различные колонки:

|                         |                                                                                                                                                                                                                                                                                                 |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Поз. (Позиция)          | Идентификационный номер детали, который используется на рисунке котла                                                                                                                                                                                                                           |
| Наименование (Описание) | Краткое описание детали                                                                                                                                                                                                                                                                         |
| Код                     | Код детали, применяемый на Baxi SpA                                                                                                                                                                                                                                                             |
| Slim XX                 | XX является номером рисунка соответствующего котла                                                                                                                                                                                                                                              |
| От серийного номера     | Дата (год и неделя) идентифицирующая начало производства детали (взята из серийного номера котла) например, <b>В005: год 2000</b> (В определяет декаду 2000-2009; 0 определяет год) – <b>5-ая</b> неделя.<br>если клеточка пустая, деталь находится в использовании с начала производства котла |
| До серийного номера     | Дата (год и неделя) идентифицирующая конец производства детали (взята из серийного номера котла) например, <b>В012: год 2000</b> (В определяет декаду 2000-2009; 0 определяет год) – <b>12-ая</b> неделя.<br>если клеточка пустая, деталь все еще находится в использовании.                    |
| Синим курсивом          | выделяется устаревшая деталь, которая уже не устанавливается (либо пока ещё устанавливается) на котлы и заменена более новой. В скобках указан код новой детали. При заказе следует указывать код новой детали.                                                                                 |
| Взаимозаменяемость      | Определяет взаимозаменяемость между новой деталью и старой.<br>YES (ДА) – детали взаимозаменяемы<br>NO (НЕТ) – детали НЕ взаимозаменяемы                                                                                                                                                        |

# HOW TO READ THE SPARE PARTS CATALOGUE

In the spare part catalogue, after the exploded diagrams, there are the components lists of the boilers; this is the meaning of the different columns:

|                    |                                                                                                                                                                                                                                                                                                                                         |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Pos.               | Identification number of the component in the exploded diagram of the boiler.                                                                                                                                                                                                                                                           |
| Description        | Short description of the component.                                                                                                                                                                                                                                                                                                     |
| Code               | BAXI S.p.A. code of the component.                                                                                                                                                                                                                                                                                                      |
| Tab. XX            | XX is the exploded diagram number of the boiler taken into consideration.                                                                                                                                                                                                                                                               |
| From serial number | <p>Date (year and week) identifying the beginning of production of a component (taken from the serial number of the boiler).</p> <p>e.g. B005: year 2000 (B identifies the decade 2000-2009; 0 identifies the year) – 5th week.</p> <p>If the box is empty, the component is in use from the beginning of production of the boiler.</p> |
| To serial number   | <p>Date (year and week) identifying the end of production of a component (taken from the serial number of the boiler).</p> <p>e.g. B012: year 2000 (B identifies the decade 2000-2009; 0 identifies the year) – 12th week.</p> <p>If the box is empty, the component is still in use.</p>                                               |
| Interchangeable    | <p>It identifies the interchangeability between the new component and the old one.</p> <p>YES: components are interchangeable.</p> <p>NO: components are not interchangeable.</p>                                                                                                                                                       |
